

# Google Drive

<https://drive.google.com/drive/folders/1SfBlezXIcDat6YbeqaTsoNCckAm2VcFE?usp=sharing>

Our Drive is used to keep track of documents which require live collaboration including documentation, brainstorming, presentations, spreadsheets, and large files like videos.

## Folder Structure:

- Documentation and Design
  - Cycle 1 and 2 documentation
  - Spreadsheets
  - To-do lists
  - Flow charts
- Presentations
  - Presentations and related documents/files
- Quotes for Incinerators
  - Quotes for commercially available incinerators and the related emails and other documentation
- Resources and Interviews
  - Emails, interview notes, and other documents related to sterilization standards, studies, etc.
- Testing and Proof of Concept
  - Videos of testing of the interface prototype and inductive heating
  - Code flow chart

# Github

Our Github is used for keeping track of software, circuitry, and mechanical design. Please find the files here: <https://github.com/Duke-BME-Design/Ignis>

## Folder Structure:

- Docs
  - Old documentation. This folder is no longer used or kept up to date, and Google Drive has taken its place
- Electrical
  - Altium files and related documents including schematics and PCBs
- Mechanical
  - SolidWorks files for mechanical models of the system
  - .STL files for 3D printing
- Software
  - User interface code, future control system code
